This is a first-home buyer's dream. Within walking distance to shops and transport. Open house Saturday, 10am-10.30am.

Enjoy bushland

HARRINGTON Grove residents will be one of the first in Australia to enjoy the fastest broadband in the nation.

This will be particularly beneficial for the growing number of people who work from home.

It will be connected directly to each home replacing the old standard copper cable network.

Technology and infrastructure will also be in place ready for technological advancements.

Harrington Grove is an

exclusive lifestyle estate which has homesites starting from 800 square metres and set in a breathtaking and unspoilt bushland setting.

There is also a new architect designed \$25 million Country Club with tennis courts, a 25m swimming pool and fully equipped gym for the exclusive use of Harrington Grove residents.

The developers, Harrington Estates, say they have had an overwhelming response.
